30.35 ft.

8.6 ft.

Flows A Switching Current, 8.6 x 30.35 ft. mosaic mural to wrap from north to west face of building.

Art in view at north west corner

Through a combination of natural gravity and engineering the Hetch Hetchy water supply system flows to San Francisco to meet the sites distinctive coastal setting and upwelling waters at Ocean Beach. The protected Snowy Plover symbolizes both the bird migration corridor at Ocean Beach as well as the mission statement of the forthcoming Ocean Beach Master Plan whose vision stands to steward environmental preservation and conservation of the area. The colors within the artwork have been drawn from the surrounding neighborhood to incorporate the unique and vibrant palette of the Sunset district.
