Questions from the September 9, 2025, Advance Payment Info Session

What is the goal of this policy and who was it issued by? [Combined Question]

The goal of this policy is to meet the requirements of the ordinance passed by the Board of Supervisors in March 2024, which required the City to issue new policies and reports guiding the City's work with nonprofit contractors, Executive Directive 24-04 on Nonprofit Grant Administration Reform issued by Mayor London Breed's Office in September 2024, and the updated Accounting Policies & Procedures issued in August 2025 by the Controller's Office that regulates advance payments to community based organizations.

Does the advance payment policy apply to individuals or is it for non-profits only?

The advance payment and quarterly reporting policy applies to all grantees, individuals and nonprofits receiving funding from the City and County of San Francisco.

Can our organization continue to only request funds by reimbursement (and not advance payments)? If so, are quarterly reports only needed for advance payments, or for reimbursement as well?"

Quarterly reports are required for all grantees, whether they request an advance payment or reimbursement; or not.

What other funding sources can a grantee use to cover the other 50% of the grant? [Combined Question]

Grantees can use funding from any source to cover the 50% of the grant amount paid via reimbursements. This could be from other grant funding, loans, credit card payments, or other resources.

How should I cover costs not covered by the advance payment? Does this mean I will need to issue IOU's? [Combined Question]

The grantee is responsible for managing cashflow in conjunction with the reimbursement schedule included in the grant agreement. Applicants and grantees may work with Arts Commission staff for technical assistance in support of this process.

How quickly will reimbursement requests be processed?

All City payments have a NET 30-day payment timeline, which means grantees will receive payment within 30 days of signing their invoice; provided that the supplier account is fully compliant and all insurance requirements are up to date

What are the criteria to receive a direct deposit as an individual?

You must register as a City Supplier with a W9 that has an Employer Identification Number from the IRS or as a single member LLC. Then you must enroll in the third-party payment provider, [Paymode](#).

If I receive a \$25,000 advance and during the first quarter and I have only spent \$10,000, will I submit an initial quarterly report showing that \$10,000 has been spent but not receive any additional funds?

Correct, you will not receive additional funds from the City until the entirety of the advance payment has been spent. If your advance payment was \$25,000 you must spend the entire \$25,000 and additional funds in order to receive reimbursement for the additional funds. Quarterly reports are required whether you are submitting for reimbursement or not.

Is there a limit to the amount that can be requested on the next quarter for reimbursement?

There is no limit to the amount disbursed through quarterly reimbursements. If the grantee has spent the entirety of their grant amount by the second quarter, they can request to be reimbursed for the entire remaining amount of the grant and will be able to close their grant once the final report is approved. Quarterly reports will be required until the grantee submits a final report and closes out the grant.

Are payments made by the Paymode system?

Direct Deposit payments are made by [Paymode-X](#), the third-party vendor contracted by the Controller's Office to make payments for the City. If you are receiving a check, the check is processed and mailed by the Controller's Office.

Do "SFAC" grants now include GFTA funding (and not just SF Arts Commission funding)?

No. Grants for the Arts remains at present under the City Administrator's Office. Additionally, the Arts Commission grants and grants issued by Grants for the Arts come from separate line items in the Hotel Tax Fund.

SEC. 515.01. HOTEL TAX ALLOCATIONS.***If I as an individual artist use a fiscal sponsor like Intersection for the Arts, do I apply for advances and reimbursements through Intersection?***

The advance payment and reimbursement policy is separate from any MOU agreement an artist or group may have with a fiscal sponsor. The entity completing the advance payment request letter is the subgrantee, not the fiscal sponsor. The approved advance payment request and information will be included in the grant agreement, which is signed by the fiscal sponsor. Both parties should work together to best manage the advance payment process and quarterly reporting.

These SFAC grants are such large dollar amounts. A monthly invoicing process would be more equitable, versus artists needing to fund such large amounts of the grants themselves.

The application funding request should reflect an amount manageable by the potential grantee. If a grantee cannot manage a \$50,000 grant, they can and should request a smaller grant amount. Grantees are not required to request the full amount.

Where do we need to advocate for a change on this policy?

The Arts Commission cannot assist with advocacy measures undertaken by the community.
